

Fairfax County Public Schools (FCPS) Advanced Academic Programs (AAP) provide challenging learning experiences that are designed to meet the unique learning profile of a broad range of advanced learners. Through a continuum of opportunities, students engage in complex subject matter, preparing them for more challenging and rigorous classes as they advance in grade level. Children identified for FCPS advanced academic services exhibit exceptional performance capability in academic, intellectual, and creative endeavors. In order to meet their needs and develop to their potential, these learners require a differentiated curriculum.

Elementary School Opportunities

Young Scholars, K-12

Young Scholars is designed to find and nurture advanced academic potential in students from historically underrepresented populations. Curricular interventions and support are provided through the collaboration of the classroom teacher and the advanced academic resource teacher. As students progress through elementary and secondary school, continuing support and opportunities for accessing rigorous coursework are provided by school staff.

Adapted from the Integrated Continuum of Special Service by Sally Reis and Levels of Service by Donald Treffinger.

Critical and Creative Thinking Strategies, Grades K-6 (Level I)

The advanced academic resource teacher and classroom teachers teach nine higher order thinking strategies across all subject areas and grade levels. The strategies are embedded in lessons that incorporate 21st Century thinking skills and extend and enrich the Program of Studies (POS) for all learners. Student responses to the lessons are also used to collect evidence of advanced academic potential in order to ensure equity and increase access to advanced academic programs.

Differentiated Lessons in Areas of Academic Strength, Grades K-6 (Level II)

Differentiated lessons are offered to students in areas of specific academic strength. The advanced academic resource teacher collaborates with classroom teachers to provide additional challenge through resources that extend and enrich the FCPS Program of Studies.

Part-Time Advanced Academic Program, Grades 3-6 (Level III)

Students identified by a local school screening committee for advanced academic services (Level III) are challenged through models and strategies designed to extend and enrich the POS in the four core subject areas. Students receive direct instruction from the advanced academic resource teacher in one or more areas of academic strength at their local schools.

Full-Time Advanced Academic Program, Grades 3-8 (Level IV)

Students found eligible for placement in a full-time Advanced Academic Program Level IV through a central selection process receive a highly challenging instructional program in the four core subject areas. The Level IV program is designed to meet the needs of advanced learners with a strong emphasis on higher level thinking, problem-solving, and decision-making. Students have ongoing opportunities for reflection and self-assessment that develop an understanding of the characteristics, demands, and responsibilities of advanced intellectual development.

Middle School Opportunities

International Baccalaureate® Middle Years Program (IBMYP): Selected Schools, Grades 6-10

The IBMYP is designed for students ages 11-16. The program helps students develop the knowledge, understanding, attitudes, and skills necessary to participate actively and responsibly in a changing world. The curriculum is supported by the fundamental concepts of intercultural awareness, holistic learning, and communication.

Honors, Grades 7-8

Honors classes in middle school are open to all students who seek academic rigor. Students may enroll in Honors classes in any of the four core academic subject areas. Honors classes use a curriculum that extends the POS in depth and complexity. Honors classes, which are available in all middle schools, seek to provide opportunities to build on individual student strengths, develop critical and creative thinking skills, and prepare students for advanced coursework in high school. Students eligible for full-time Level IV placement have the option to take full Honors at the local middle school.

For additional information about the screening process or advanced academic opportunities at your child's school, contact the principal or advanced academic resource teacher at your local school. For information on countywide services for advanced learners, visit the [Advanced Academic Programs website at https://www.fcps.edu/academics/academic-overview/advanced-academic-programs](https://www.fcps.edu/academics/academic-overview/advanced-academic-programs) or call the Advanced Academic Programs office at 571-423-4740.

High School Opportunities

Advanced academic courses in high school are open to all students who seek academic rigor. Students have the opportunity to enroll in courses as underclassmen and continue in Advanced Placement (AP), International Baccalaureate (IB), and dual enrollment courses. Students may earn college credits based on the results of their examinations (AP and IB) or course grade (dual enrollment).

Advanced Placement (AP)

The AP program provides rigorous academic college preparatory coursework in the major subject fields. Individual AP classes are designed to emulate introductory college courses.

International Baccalaureate® Diploma Program (IBDP): Selected Schools, Grades 11-12

The IBDP program provides a comprehensive rigorous education emphasizing analytical thinking, reading and writing skills with an international perspective. Students may choose to pursue the IB diploma or receive individual certificates in IB courses.

Dual Enrollment

Dual enrollment courses are offered in conjunction with local universities in a few select schools. These college-level courses include English, government, multivariable calculus, and matrix algebra.

Thomas Jefferson High School for Science and Technology (TJHSST)

TJHSST provides an innovative, specialized learning environment for highly motivated students who have a genuine interest in the biological, physical, mathematical, and computer sciences. Designated as the Governor's Regional School in Northern Virginia, TJHSST offers a comprehensive college preparatory program with additional required courses in science, mathematics, and technology.
